

***Premium European lubrication
solutions for automotive and industry***

■ ■ ■ ***Business Unit presentation 2026***

NOVESLUB *Mission*

The Lubricants Business Unit of CHEMFOR, delivering premium European solutions with engineering expertise, technical consulting and reliable supply for our customers.

Professional solutions

For automotive and industry

Increase availability

Improve asset reliability

Improve sustainability

Support longer service life

Reduce downtime

Keep equipment operating

Optimize costs

Smarter maintenance decisions

Reliable deliveries

Dedicated stock and support

Why Lubrication **Matters**

Lubrication is not just a consumable. It directly influences equipment reliability, productivity and total maintenance cost.

Reliability

Protect components and extend service life

Productivity

Reduce interruptions and stabilize output

Maintenance cost

Prevent repairs and unplanned downtime

Why choose **NOVESLUB**

1

Engineering Support

2

Reliable Supply

3

European Manufacturers

4

Technical Expertise

5

Dedicated Stock

6

Long-Term Partnership

European Manufacturing Partners

OLIPES Spain

Engineering innovation backed by 30 years of manufacturing experience.

30 years

Expertise in lubrication technology

112k / 22k / 37k

t/year oils / greases / specialty products

600+ lubricants

2,500 references across 75 sectors

45 countries

Trusted by more than 8,000 customers

ISO 9001 & ISO 14001 certified | Engineering support and in-house laboratory

European Manufacturing *Partners*

ADECO *Serbia*

Comprehensive lubrication solutions for automotive, heavy-duty and industrial applications.

Complete portfolio

Engine, transmission, hydraulic, metalworking, greases, coolants and AdBlue®

Vehicle applications

Passenger cars and commercial vehicles

Industrial applications

Construction, agriculture and industrial equipment

Recognized standards

API, ACEA and internationally recognized OEM specifications

OEM coverage includes Mercedes-Benz, MAN, Volvo, Cummins, Renault Trucks and MTU.

Approved for **Demanding Industries**

Our selected manufacturing partners provide products for sectors where performance, compliance and reliability are critical.

1

**Automotive
Manufacturing**

2

Metal Processing

3

Heavy Industry

4

Mining

5

Construction

6

Agriculture

7

**Power
Generation**

8

Marine

9

**Food & Beverage
(NSF H1&HALAL)**

10

**Pharmaceutical
(selected products)**

Product approvals and compliance are confirmed for each application.

Secured by *Top Raw Materials*

Performance begins with carefully selected base oils, additive systems and application-specific formulation.

Base oils

Viscosity and stability

Additive systems

Wear and oxidation protection

Formulation

Balanced for target applications

Product selection

Matched to equipment requirements

Supplier quality, compatibility and approvals are verified product by product.

Let's Build *Reliability* Together

Whether you operate one production line or multiple manufacturing facilities, NOVESLUB supports your lubrication needs with technical expertise, premium European products and dependable service.

Technical expertise

Application guidance
and engineering support

Premium European products

Selected manufacturers
and proven products

Dependable service

Reliable supply and long-
term support

Let's Build Reliable Industrial Partnerships Together

Engineering Expertise | European Quality | Trusted Partnership
